AFFORDABLE INSTITUTIONAL ADVERTISING

Economic - Equitable- Exposure

These three words sum up the pursuit of Global Business Pages. Our ultimate goal is to:

- Provide manufacturers and suppliers access to comprehensive listings in a business directory that covers the world.
- Encourage all types of enterprises to think global and launch their products and services worldwide.

Our Belief

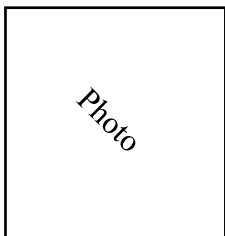

We believe that north-south trade imbalances cannot be eased by respective administrations alone. Also that the way forward calls for cooperative efforts and initiatives by entrepreneurs such as GBP.

Further, we believe that granted a means for equality in exposure, manufacturers from LDC countries will be in a better position to design marketing and promotion strategies that will enable them to integrate into the world economy and take advantage of resulting export opportunities. .

About The Publisher

I will be the first to admit that I have taken courage for this venture from my 'Buyers and Sellers Guide' first Published in 1983. At that time, my idea was to provide Much needed exposure for producers, buyers and sellers

across the country and indeed around The world.

However, it soon became evident that cost, barred a majority of small producers from taking full advantage of my trade promotion opportunity. I remain convinced that small manufacturers would always benefit from free or affordable institutional advertising. I savoured a feeling that given the best information about their products, businessmen and buyers worldwide could be more inclined to rank a given country as a trading equal. Accepting that, what was true for India and its small businessmen is also real for Africa, several countries in Asia, the Caribbean Basin and some of the Americas, I broadened my vision and set my sights on producing this Global Business Directory – Global Business Pages.

Global Business Pages

Help for the Adventurous

As an invaluable resource for business leaders, the GBP directory is focused on companies with an interest in expanding into markets around the world.

Established in 2006 .Global Business Pages is a one of a kind fully fledged business directory service that provides:

- ❑ An all industry all category Internet business information directory that offers coverage locally, nationally and worldwide.
- ❑ Business directory information packages that can be customized for large and small organisations in the G-8 countries as well as small businesses in developing countries. (Many of these smaller businesses are potential partners for companies seeking to expand into the third world)

Fact

The United Nations Conference for Trade and Development (UNCTAD's) 2006 report on Least Developed Countries highlights, weaknesses in several areas. These include - Capital accumulation, technological progress and structural change -
